

FATIMA JINNAH WOMEN UNIVERSITY

Submitted by: Alishba Zainab

Roll no: 23-BSE-006

Semester: VA

Submitted to: Sir Waqas

ASSIGNMENT 1

CLOUD COMPUTING

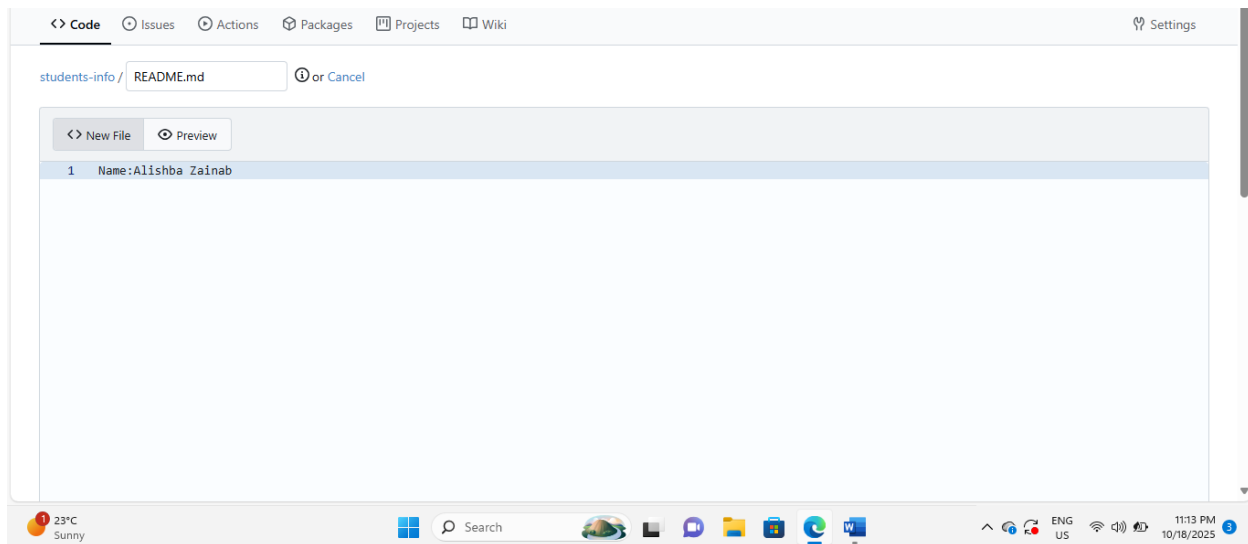

Submission Checklist:

- 1.Screenshot of your Gitea repository (showing README listing names & roll numbers)
- 2.GitHub assignment 1 repo link (with README and large files)
- 3.Screenshot or output of git remote -v showing both remotes
- 4.GitHub Pages link to your CV/portfolio

Task 1: Run Gitea in Codespace and Create an Initial Repo

The screenshot shows a VS Code Codespace environment. The Explorer view on the left displays a file tree for the 'ASSIGN [CODESPACES: GLOWING CHAINSAW]' workspace, containing files like 'gitea', 'students-list', 'docker-compose.yml', and 'README.md'. The main editor area shows an 'Untitled-1' file. The Ports view at the bottom indicates two forwarded ports: port 22 (Private) and port 3000 (Public). The right sidebar features the 'Build with agent mode' button and a 'Show Config' button. The status bar at the bottom shows the Codespace name 'Codespaces: glowing chainsaw' and the current file 'assign main*'. The system tray at the bottom indicates a temperature of 23°C and a sunny weather condition.

The screenshot shows the Gitea login page. The page title is 'Sign In'. It features a login form with fields for 'Username or Email Address' and 'Password'. The 'Username or Email Address' field contains the text 'rainab'. Below the password field is a checkbox for 'Remember This Device'. The 'Sign In' button is highlighted. The footer shows 'Powered by Gitea Version: 1.22.0 Page: 1ms Template: 1ms' and links for 'English', 'Licenses', and 'API'. The system tray at the bottom indicates a temperature of 23°C and a sunny weather condition.

Task 2:

Mirror README.md from Gitea to GitHub

```
zaina@alishba MINGW64 ~/Documents/task3final (main)
$ git remote -v
gitea https://glowing-chainsaw-5g7qr67pqxw9c46q7-3000.app.github.dev/zainab/students-info.git (fetch)
gitea https://glowing-chainsaw-5g7qr67pqxw9c46q7-3000.app.github.dev/zainab/students-info.git (push)
github https://github.com/ALISHBAZAINAB/task3final (fetch)
github https://github.com/ALISHBAZAINAB/task3final (push)
origin https://github.com/ALISHBAZAINAB/task3final.git (fetch)
origin https://github.com/ALISHBAZAINAB/task3final.git (push)
```

Task 3:

Use Git LFS for Large Files

```
zaina@alishba MINGW64 ~/Documents/assign (master)
$ git lfs install
Updated Git hooks.
Git LFS initialized.
```

```
zaina@alishba MINGW64 ~/Documents/assign (main|MERGING)
$ ls
README.md largefile1.zip largefile2.zip largefile3.zip

zaina@alishba MINGW64 ~/Documents/assign (main|MERGING)
